I have been heavily involved in the affairs of the park since I took ownership of building 1506 in mid 2007, striving to enhance the value of the properties within the park and the desirability and functionality of Brookhollow as a destination of choice for businesses:

2007-2008: As an owner, volunteered and implemented the current sign program for the whole park, far superior to the old program that was in place, essentially obtaining signage allowance not available previously.

2009: As the Board President effected significant cost reduction and sustainability through the economic storm and partially reversed the dues increase in 2008. Also started various value enhancing initiatives.

2010: As the acting management company, continued on the cost reduction and value enhancement of operations as well as a host of initiatives, including, but not limited to, creation of website, streamlining of work order process through the net, update of the sign program (WIP with the City), enhancing the curb appeal through cost effective paint project, landscaping project, establishment of permit program for the common areas, Green project, Asphalt project, etc.
