

## Environmental Preservation Initiative Series Gift A Tree

As part of the overarching BHOPA Environmental Preservation effort, The Board of Directors has approved a **Gift A Tree** program.

Interested owners/businesses/individuals can select a tree of choice from the enclosed list and purchase and have delivered to Brookhollow Management. The nursery the tree is purchased from must be approved by the Management. As a referral, Tree Town USA is a good source and where the other 30+ newly planted trees have been purchased from.

The tree to be planted at a location mutually picked by the donor and the Management. The tree will go under the care of the Association.

Donor will be provided with a certificate of appreciation and will be featured on BHOPA website and announced via news alert to the bigger audience distribution list.

Should you have an interest, please contact Brian at the management office at [Brian@AyZarInc.Com](mailto:Brian@AyZarInc.Com).

(Bignoniaceae) English: Pink trumpet tree

Tipuana Tipu

Tipuana tipu, also known as tipa, rosewood and pride of Bolivia, is a South American tree. It is the only member of the genus Tipuana. It was recently assigned to the informal monophyletic Pterocarpus clade within the Dalbergieae.

Jacaranda

Jacaranda mimosifolia is a sub-tropical tree native to south-central South America that has been widely planted elsewhere because of its attractive and long-lasting pale indigo flowers. It is also known as jacaranda, blue jacaranda, black poui, or as the fern tree.

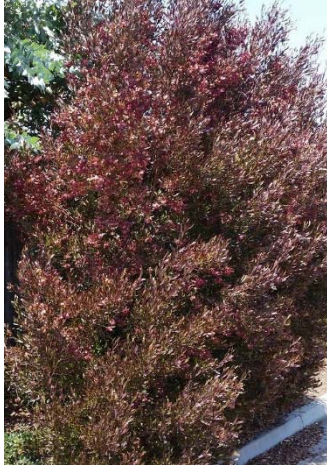

Cupressus Tiny Towers

'Tiny Tower' is a very slow growing, unique, more compact form of Italian Cypress that grows only 8 ft. tall after 10 years, eventually achieving a height of 25 ft. The rigid columnar form of dense deep blue-green foliage is a valuable accent in any location. Requires no maintenance but responds well to topiary applications

# Tree Type Options

Dodonaea v. 'Purpurea'

Dodonaea v. 'Purpurea' (Purple Hopseed Bush) is a fast growing evergreen shrub that reaches 12 to 16 ft. tall and nearly as wide. It is more upright when it's young but spreads out with maturity....

Purple Leaf Plum

**Purple-leaf plum trees**, also called cherry **plums** or flowering **plum trees**, can add interest to your yard or garden with their dark red to **purple** foliage and abundance of white to light pink spring blossoms. **Purple-leaf plums** are medium-sized, deciduous **trees** primarily used for ornamental purposes.
